Experience the sun's never-ending power

GREENENERGY
Your Clean Energy Source

INTEGRITY

Greenenergy works with professional partners world-wide who share the same mission to promote the use of renewable power.

We use that power to supply a clean, reliable energy source for residential and commercial properties.

QUALITY

Experience quality that you can trust.

Greenenergy uses the finest quality materials for all its products for maximum performance and durability. Products have been thoroughly tested to satisfy strict governmental requirements.

SERVICE

To service customers more efficiently, Greenenergy's facility in Fort Myers, FL, maintains a large inventory of materials for easy shipping to anywhere in the US, Canada and the Caribbean.

**The Cost of Hot Water
Just Got Affordable!**

Got Sun?

Get Solar...

Heat Water!

**SOLAR WATER
HEATING SYSTEM**

*Your Way to Save Money
and Live Green!*

Invest Smart, Take Advantage of the Sun!

*Home electricity has risen 60% since 2000.
Water heating is the second highest
energy cost in a household.*

- Reduce your carbon foot print
- Fast return on investment

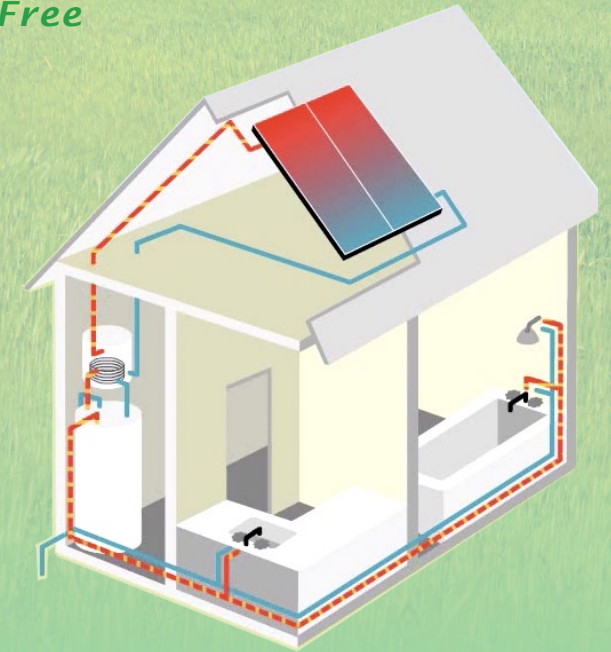

QUALIFIES FOR
30%
FEDERAL TAX CREDIT

**The sun's never-ending power
is free, so why go without it?**

SOLAR THERMAL SYSTEM

Enjoy Hot Water All Year For Free

The Solar Thermal System produces hot water in your home for you to save electricity while:

- Enjoying hot baths and showers
- Running your dishwasher and washing machine
- Using your kitchen sink

**How will your
Solar Thermal System work?**

Heat from the sun is absorbed into a solar collector mounted on your roof. The hot liquid in the collector is then routed to your tank to heat your water and then back to the collector in a continuous loop giving you hot water to enjoy at any time.

“Renewable energy is proven technology, the price is dropping, the rest of the world is going that way, that’s where our investment should be going as well.”

- Robert Brown
