

**Experience the sun's  
never-ending power**

## **INTEGRITY**

Greenergy works with professional partners world-wide who share the same mission to promote the use of renewable power.

We use that power to supply a clean, reliable energy source for residential and commercial properties.

## **QUALITY**

Experience quality that you can trust.

Greenergy uses the finest quality materials for all its products for maximum performance and durability. Products have been thoroughly tested to satisfy strict governmental requirements.

## **SERVICE**

To service customers more efficiently, Greenergy's facility in Fort Myers, FL, maintains a large inventory of materials for easy shipping to anywhere in the US, Canada and the Caribbean.

# Solar Pool Heating System

*Treat yourself with the best*

## Take Advantage of the Sun: Heat Your Pool Water for Free

### Smart investment

Compared to other Pool heaters, your solar system will pay for itself in just a couple of years.

### More relaxation and fun at home with family and friends

Enjoy your pool at the perfect temperature.

### Longer swimming season

Increase your pool temperature by up to 20 degrees while expanding the number of months you can swim comfortably during the year.

### Environmentally friendly

Protect the environment by choosing clean and unlimited renewable energy.

### Wise choice

Add value to your home.

### Versatile

Works with both in-ground and above-ground pools.

### Hurricane Proof

Secure system in any weather conditions.

## How will your Solar Pool Heating System work?

*It's easy! Set the desired pool temperature on your solar controller and let the sun do the rest.*

- Solar collectors absorb sun's heat and transfers it to swimming pool water
- Your pool pump sends pool water to the solar collectors.
- As the water flows through tubes in each solar collector, the sun's energy heats it.
- The solar-heated water then flows back to your pool.
- This simple cycle continues until your pool reaches your desired temperature.

*Get the most out of your swimming pool!*
